No Way Back Home

music and lyrics by Eric Noden

I went so far away
did't look back for many a day
sent a message on a spirit phone
cause there ain't no way back home

two trains they run right by
while the moon shines in the sky
no matter how far I roam
Still there ain't no way back home

cut the ropes and break the ties
watching the world as it slowly unwinds
singing such a lonely song
cause there ain't no way back home

Some things you gotta leave undone
battles lost that'll never be won
one thing that time has shown
that there ain't no way back home

The storms keep on rolling through
one by one and two by two
the wind howls and it begin to moan
cause there ain't no way back home

Don't let your dreams get swept away
in the chaos of the modern day
It's been written on the walls of stone
that there ain't no way back home
